Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on 18 January 2000.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 17, 18, 24, 27, 43, 46, 48, and 49-51 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 17, 18, 24, and 49 recite the limitation "the mesh." There is insufficient antecedent basis for this limitation in the claim.

Claim 43 recites the limitation "the coated fabric." There is insufficient antecedent basis for this limitation in the claim.

It is the Examiner's position that the correct limitation should be "the treated fabric". Furthermore, it is unclear what is meant by the term "windows." Clarification/correction is required.

Claim 48 recites the limitation "the resin." There is insufficient antecedent basis for this limitation in the claim.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed.

Art Unit: 1771

Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 10-19, 22-24, 35, 36, and 49-52 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 10-20 of U.S. Patent No. 6,001,437. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are obvious variants of one another.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 10-19, 22-27, 35, 36, and 41-53 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kirk et al. (US 5,654,063) in view of Fritze et al. (US 4,372,997). Kirk et al. disclose a pressure sensitive adhesive cover comprising an intumescent material (col 4, ln 19-21). The scrim is preferably in the form of an open mesh lattice comprising fiberglass material (col 4, ln 52-54). A felted sheet (col 4, ln 67) can be used within the fiber barrier layer. The base member

Art Unit: 1771

may be formed of plastic sheet material (col 5, ln 61-64). Kirk et al. disclose the claimed invention except for the teaching that the fabric is embedded into a polyolefin organic resin.

Fritz et al. disclose heat and flame resistant sheet material comprising glass fiber mats that are laminated to films of polypropylene to provide a moisture barrier (col 4, ln 5-8). It would have been obvious to one having ordinary skill in the art at the time the invention was made to have used Fritze's polypropylene film in the adhesive cover of Kirk et al., motivated by the desire to create an adhesive having a moisture barrier.

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ula C. Ruddock whose telephone number is (703) 305-0066. The Examiner can normally be reached Monday through Thursday from 6:30 AM to 5 PM.
